### **What can the Community Paramedic do to help me?**

Through our collaboration with many community resources, we can help connect you with a variety of services. We take a very “outside of the box” approach to problem solving and will use what is available to us to improve the situation for our citizens. A few of the most common services we can help with are:

- Basic medical evaluations and collaboration with your physician
- Fall prevention
- Nutrition services
- Cleaning and home repair services
