ITEMS FROM THE BOARD OF TRUSTEES

Big Splash Pool. Board requested that staff find out what happened to the plaque with the Township Officials' names on it and asked that it be replaced.

Discussion was then held about the driveway approaches and sidewalks at Station 202. Mr. Rauck has been working with a couple different contractors to come up with specs and engineering for the driveway aprons and spoke to the issue of concrete pavement repairs at the fire stations. The most important quick repairs to do this year are probably at main fire house 202. He met with Les Spring at the City of Grove City, and he is fairly sure that Grove City will pick up the cost of all the new curb full length if we put in a full length new apron and sidewalk. Then if we do the apron and back and extend it another five feet doing both sides of the firehouse, cost is roughly around \$47,000 to \$48,000. That cost is with Grove City doing the curb and the Township doing the apron and sidewalk, one small repair patch in front, and doing the entire back and extending it five feet. Would be going from a depth of eight inches to ten inches using a higher grade concrete using a fiber mix, and excavating it sixteen inches deep and going back in with 6" compacted 304 base and the high grade DOT concrete. This would be tearing it out to get away from the rippled asphalt and doing all the repairs out front.
