Variance 3-VA-2023

Applicant: Alejandro Cenibe Flores
Property: 2430 Gantz Road, (parcel #160-002932)

108.01 Nature of a Variance

On a particular property, extraordinary circumstances may exist making a strict enforcement of the applicable Development Standards of the Zoning Resolution unreasonable. Therefore, the procedure for Variance from Development Standards is provided to allow the flexibility necessary to adapt to changed or unusual conditions, both foreseen and unforeseen, under circumstances which do not ordinarily involve a change in the application of this Zoning Resolution. Applications for Variances are heard by the Board of Zoning Appeals, hereinafter the Board.

Sections of the Jackson Township Zoning Regulations requesting a Variance:

The applicant is requesting to construct a primary structure within the required front yard setback.

203.07 Building Lines

Along every street right-of-way a building line shall be established from the centerline of that right-of-way a distance equal to the width of the existing right-of-way or the width of the right-of-way proposed in the Franklin County Thoroughfare Plan, as adopted by the Mid-Ohio Regional Planning Commission, as amended, whichever right-of-way is greater. A platted building line or a recorded plat shall govern in cases of conflict. For a substandard road or a road not identified on the Franklin County Thoroughfare Plan, a minimum building setback of sixty (60) feet from the centerline of the road shall be required.

A. Required Setback. A structure or other use of land, except parking, shall locate no closer to a street right-of-way than the established building line.

The Franklin County Thoroughfare Plan, adopted August, 2022, shows Gantz Road as a Minor Arterial Road (100 feet).

Action by the Board

The Board shall only approve a variance or modification thereof if the following findings are made:

1. That special conditions and circumstances exist which are peculiar to the land or structure involved and which are not applicable to other lands or structures in the same Zoning District.
 - *No special conditions or circumstances exist which make the property unique that are not applicable to other lands in the same zoning district.*
2. That a literal interpretation of the provisions of this Zoning Resolution would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under terms of this Zoning Resolution.
 - *Interpretation of this zoning resolution does not deprive this property owner rights commonly enjoyed by other property owners within the same zoning district.*
3. That the special conditions and circumstances do not result from the action of the applicant.
 - *Special conditions and circumstances do not result from the action of the applicant.*
4. That granting the variance requested will not confer on the applicant any special privilege that is denied this Zoning Resolution to other lands or structures in the same Zoning District.
 - *Granting of the variance will allow for the construction of the primary structure in the original location.*
5. That granting the variance will not adversely affect the health or safety of persons residing or working in the vicinity of the proposed development, be materially detrimental to the public welfare, or injurious to private property or public improvements in the vicinity.
 - *The parcel is 1.098 acres and is approximately 560' feet at its narrowest depth.*
 - *The lot is large enough to allow for the house to comply with the required setback requirement.*

Requesting the following specific variance:

Section 203.07 Building Lines; states that the building line shall be located from the road centerline as specified in the proposed Franklin County Thoroughfare Plan. Gantz Road is Minor Arterial (100'-0").

Under Ohio Law (519.14) the Board of Zoning Appeals may only approve a Variance that (A.) will not be contrary to the public's best interest and (B.) that the spirit and intent of the Zoning Resolution will be observed. The applicant summarizes below the following (Attach extra sheets if necessary):

- Describe the special conditions and/or circumstances that exist and which are peculiar to the land and/or structures for the property seeking Variance. Did the property owner / applicant create the unique circumstances? Yes No (circle one).

The building line at 100' from the road centerline would affect the septic system and well. Also, an existing accessory building would have to be demolished along with multiple large trees.

2. Describe how the Township's Zoning Code restrictions will deprive the property owner of property rights commonly enjoyed by other properties in the area. Did the property owner / applicant purchase the property knowing of these restrictions? Yes / No (circle one).

Most of the surrounding properties are large in size with room for accessory buildings ie: detached garage, storage sheds. Also, properties in this area have forestry, and have room to spread out. Also, this is one of the smaller properties on this side of the road, the South property is 2.04 acres and the North property is 2.681 acres.

3. Describe in specific detail why this Variance request **WILL NOT** adversely affect the health, safety or general welfare of adjacent property owners or neighbors.

Locating this house at the 100' building line would be closer to the septic system and well. if this variance is approved, these systems will not be affected. Also, a turn around driveway is planned to enter and exit the property head-on.
